

# BACKFLOW DEVICE TEST KITS

The Ryemetal Backflow Test Kit is compact, lightweight and portable. It is easy to use and contains all the equipment needed to test medium and high hazard devices to AS/NZ 3500.1

## Catalogue Numbers

Model	Catalogue Number
Backflow Device Test Kit	7190
100 kPa (10kPa incremented) Pressure guage & Calibration certificate	
1 metre Colour Coded Connection Hoses	
Quick Connect fittings to suit all brands of backflow devices	
Test procedure information sheets	
Tough Plastic Carry Case	

## Features and Benefits

- Easy to use
- Compact lightweight
- Fully portable
- Suitable for use on all medium and high hazard backflow devices

## Application

Ryemetal backflow device test kits are used to test the pressure differential of RPZ, double check and double detector valves from 15mm through to 200mm. The kit allows accurate, on site appraisal of backflow device performance upon commissioning and subsequent tests.

## Technical Data

Connecting Hoses:	1 metre length colour coded to test points pressure rating to 2000 kPa
Gauge:	Scale in 10 kPa increments 100 kPa full scale deflection ±2% accuracy

## Materials

Connecting Hoses:	Reinforced Neoprene Brass End Connectors
Gauge:	Aluminium Case Aluminium and Stainless Steel Internals

## Replacement Hoses
