

STAINLESS STEEL CABINET KIT

The RMC Stainless Steel Cabinet Kit is a lockable cabinet with 4-in-1 inlet fittings, which allows secure installation of tempering or thermostatic mixing valves.

Catalogue Numbers

Model	Catalogue No.
Stainless Steel Cabinet Kit with 1/2" Fittings	MIX11167
Stainless Steel Cabinet Kit with 3/4" Fittings	MIX11168

The RMC Stainless Steel Cabinet Kit includes 4-in-1 fittings, with either 1/2" or 3/4" copper compression connections, to facilitate installation and maintenance. The 4-in-1 fittings include isolation, strainer, non-return, and test port functions.

Application

The Stainless Steel Cabinet Kit is ideal for installation in public facilities. The lockable cabinet ensures access to the valve is restricted for greater security and safety.

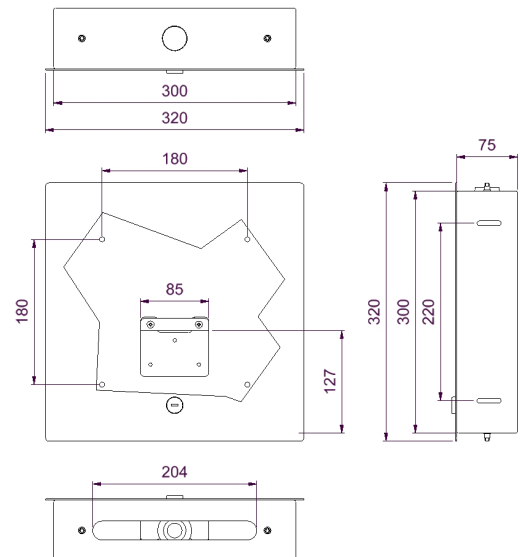

Materials

Cabinet:	● Stainless Steel
